

Why am I being given this flyer?

Because it's
currently against
the law to ride an
e-scooter on a
public road
or pavement.

Protecting our communities

We understand that buying an e-scooter can be tempting, especially as you can get them from many popular retailers.

However, the current law is clear

You can buy one but you can't ride it on a UK public road, cycle lane or pavement. The only place an e-scooter can be used is on private land.

Why is this?

E-scooters are classified as Personal Light Electric Vehicles (PLEVs), so they are treated as motor vehicles and subject to the same legal requirements, such as:

- MOT
- Licensing
- Tax
- Insurance

As e-scooters do not have number plates, signalling ability and don't always have visible rear lights, they can't be used legally on the roads.

What happens if I've been stopped by Leicestershire Police?

Leicester, Leicestershire and Rutland Road Safety Partnership and Leicestershire Police understand the public's support for environmentally friendly modes of transport. We want to work with the public to make sure the roads are safe for everyone.

The UK Government is currently taking part in 'Future Transport Zone' trials for e-scooter hire, with a view to making them legal to use on the roads.

All local authorities can apply to take part, but at the moment, Leicestershire are not part of the trials.

Electric scooters are classed as a motorcycle as defined in Section 185 of the Road Traffic Act 1988 and, because of their low speed, within the subclass of moped. This means that electric scooters must abide by the same road traffic legislation as mopeds and motorcycles.

Section 165 of the Road Traffic Act 1988 provides the power to seize privately owned e-scooters for driving without insurance or a driving licence.
